

## APPLICATION FOR FULL OR ASSOCIATE MEMBERSHIP

UKSPA promotes and supports active knowledge intensive communities – however named – that drive innovation. UKSPA members deliver these communities to support knowledge based businesses and grow the wider economy.

The locations are described in many ways – including as a Science Park, Research Park, Innovation Centre, Technology Park, Technopole or technology-based Incubator, but all share a common ambition – to deliver the right properties, services and support to their occupiers.

These communities are environments for some of the most innovative businesses in the UK ranging from start-ups to large, multi-national corporate and public sector R&D. UKSPA members encourage and sustain the start-up, incubation and development of innovation-led, high-growth, knowledge-based businesses allowing them to scale-up and flourish.

**Full Membership** is for those organisations which are fully operational, having a site, support services, buildings, occupiers and a management function that supports the growth of knowledge intensive businesses..

**Associate Membership** is the membership category applicable to Innovation-locations which are aspirational or being planned, under development or yet to reach the Association’s definition of a full member.

**Name of your location**

**Location/Address**

**Details of any academic / research organisation involved in your development/location**

**List of other development partners**

Description of property offering – please indicate which is existing and which is planned. Please do include current information on number of (current and anticipated) tenant companies, their areas of activity and available/intended space.

Please provide an overview of how the park will be managed in terms of day-to-day management, strategic planning, support for tenants and links with external partners

Brief description of the letting policy

Any other relevant details (eg. stage of development reached by locations not yet operational)

Is the development already known to an existing UKSPA Member? If so, please name

Name, address and contact details of the organisation submitting the application

Name, Position and e-mail address of key representative who will attend UKSPA meetings and to whom correspondence should be sent
